

Fireflies Topic Homework

Can you create an OUTSTANDING TUDOR project?

Dear Parents / Carers,

As you may be aware, our topic work this half term is Terrific Tudors. We also have a significant Science unit entitled 'Evolution and Inheritance'.

As an on-going homework project in the next few weeks, your child can research Tudors or an aspect of Science and investigation linked to evolution.

The project can be in any way that you like, but it must be high quality and suitable for display in school. Below are some ideas.

Please enjoy spending time with you child putting this project together, it would be great if the projects could be in school in the last week before February half term (Friday 9th February 2018), so that they can be shared, presented and then put on display around the school.

Thank you for your support,

Miss Coe and Miss Cannon

Some example to guide you:

- Research a famous explorer
- Write a biography of Henry viii
- Write a diary entry as if you were on the journey finding something on an exploration adventure.

Science ideas:

- Find out about stars and how they are grouped into constellations, despite being a long way from each other.
- Make a simple telescope to study the stars & a plan sphere to identify them.
- Study the phases & apparent movement of the moon.

How creative can you be?

- Design a Tudor room
- Create a 3d Tudor home
- Research and Create a Tudor exploring ship
